

Elder Abuse Annual Research Compilation

SEPTEMBER 2024 – AUGUST 2025

This annual research compilation highlights articles relating to elder abuse, neglect, and exploitation that were published between September 2024 and August 2025.*

Search criteria and strategy: The articles were identified using the USC library catalogue database and applying the search terms *elder abuse, elder mistreatment, elder neglect, financial exploitation, adult protective services, and long-term care*. Only peer reviewed research articles published in English were included. Articles were excluded for non-relevance if elder abuse, mistreatment, or violence were not in the title or keywords.

This year's prominent themes in research included, but were not limited to, the following:

1. **Prevalence**
2. **Risk Factors**
3. **Impact**
4. **Financial Exploitation**
5. **Caregiving and Dementia**
6. **Prevention and Intervention**
7. **Education and Training**
8. **Healthcare Settings**
9. **Forensic**
10. **Protective and Social Services**
11. **International Studies**

Articles that related to multiple topics were placed in the category that was most central to the research and its application.

Please direct any questions about the research referenced in this publication to the researchers who authored the studies.

*Article publication date reflects the date the article was published in the relevant academic journal.
